

The power of knowledge at work

**MAGNA**  
**computer corp.**  
Your First Resort for IT Solutions

# MAGNA computer corp.

Uniting Experience and Know-How to  
Make Your Timeshare Business More Profitable

**Magna Computer Corp.** is a true pioneer in the field. With two decades of proven IT experience and expertise, we are the industry standard of providers for information systems, technologies and integration services exclusively for the timeshare industry.

Since its inception, Magna has been the leader with product innovations that integrate and support virtually all aspects of timeshare operations.

We were among the first to develop software solutions that could be accessed and managed over the Internet, and today our product innovations have become “the model” of the vacation ownership industry.

We continue to research and develop new products that meet the critical information needs of today’s resort industry with IT solutions that are not only accurate, fast and reliable, but are first and foremost affordable, flexible and easy to use.

## World-class Software, Renown Expertise, and Array of Essential Services and Support

With Magna Computer Corp., you get more than software and hardware, you get a partner truly dedicated to your success. Depending on your unique needs, we offer the full range of timeshare capabilities—from innovative software products and advanced technologies to seamless installation and integration, training and support. We offer an array of quality, time-proven products and services:

- **MAGNAware, On-site Enterprise Software Solutions**
- **MAGNA.net, Internet-accessible Enterprise Software Solutions**
- **Integration Services**
- **Training/Consulting**
- **Customer Support**

**MAGNAware**—the software that is revolutionizing the timeshare management industry.

MAGNAware represents the state-of-the-art in software solutions. MAGNAware innovations maximize profitability by linking all resort operations. Synchronizing resort activities into distinct groups and modules creates a fully integrated solution and gives management instant access to critical data across all operations. Whether you choose MAGNAware installed at your place of business or choose our MAGNA.net internet access option—you'll get the most comprehensive, fully integrated, user-friendly software available.

Magna brings you some of the most sophisticated and powerful software solutions on the market today.

# MAGNAware—the most powerful and sophisticated market connects all timeshare operations.

MAGNAware's groups/modules configurations connect all resort activities. Streamlined operations and instant access to accurate, timely, information maximizes efficiency, productivity and profitability!

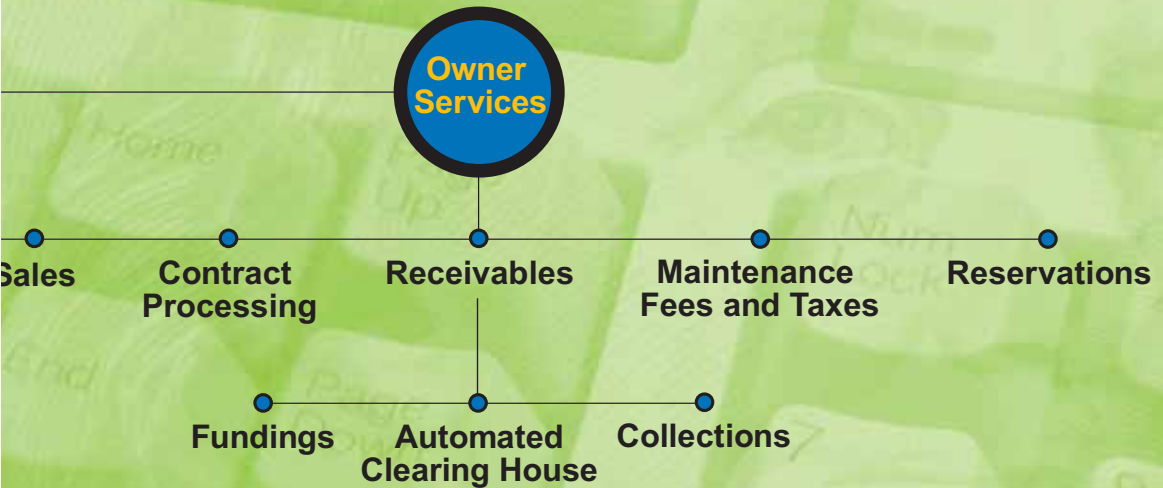

## MAGNA.net—go on-line for greater success and profitability

Now you can plug into one the industry's premier timeshare operating systems—via the Internet—without the capital-intensive purchasing of software or hardware. MAGNA.net gives you instant access to our total software package online. From lead generation, to property management, Magna gives you the most comprehensive, fully integrated, user-friendly software available.

## Integration services—linking it all together

Whether you are a small PC-oriented business or a larger networked operation with multiple users at multiple sites, Magna Computer Corp. has the software, hardware and technical resources to get you connected and running smoothly in record time. We manage the hard and soft of it. Magna is proficient in virtually all computer platforms and configurations—including Unix , LINUX, Mac OS, and Microsoft.

Desktop environments we serve include X Windows, Character Terminals, Thin Clients, MS Windows and Macs. They can be accessed via dial-up and the Internet from remote locations.

### Hands-on, in-depth training and consulting services

Magna Computer Corp. specialists/consultants can help design, implement and configure the systems that work best for your specific timeshare operation. Upon installation, we offer in-depth, hands-on training of your staff.

Our experienced trainers create a friendly learning environment and provide step-by-step instruction on all aspects of the new system. Training is available either on-site or at Magna Academy, our corporate training center.

State-of-the-art software design provides unparalleled reporting and analysis capabilities and immediate access to critical data and information.

MAGNAware is the proven work horse of all timeshare software. Its innovative, dynamic design makes it ideal for virtually all sectors of the vacation resort continuum.

Because MAGNAware's design is so comprehensive and powerful, there is no need to customize programming or procedures for individual groups within your business. MAGNAware brings it all together in one convenient and affordable software package.

Magna has created state-of-the-art software to fully automate your resort. Modules have been custom designed for virtually every group.

## Total anytime, anywhere customer support

Magna Computer Corp. offers around-the-clock maintenance and support, seven days a week, 365 days a year. Once you hire Magna, we can supplement your in-house computer department. When questions arise, your staff interacts directly with Magna specialists—in person, online or by phone. No matter what the questions or issues are, we're at your side to help. We'll trouble shoot problems promptly and walk you through simple computer operations until you're satisfied and comfortable with the solution.

## Magna Computer Corp.—helps bring LINUX to life

Magna is dedicated to helping our clients increase revenues, decrease expenses and deliver better customer service. LINUX is the new revolution in the world bringing this concept to computer users worldwide. Magna has dedicated itself toward bringing this technology to the resort industry. We are major LINUX enablers.

Our systems integrators can deliver virtually license free software to your desktop with 'Office' compatible workstations to deliver web browsing, word processing, spreadsheets, e-mail and more. This also includes delivering firewalls, mail and web servers and database servers. The only cost is for support, hardware and installation.

We have saved individual clients as much as \$200k by switching to standard internet e-mail servers and gateways.

With our capabilities and experience, we can meet the most elaborate IT requirements. We're called on by developers, resorts' sales and marketing and homeowner associations.

Call Magna today for a free, no obligation needs-assessment.

Our staff of experts will analyze your present system set-up and discuss the many affordable options available that meet your unique goals and objectives. So call Magna Computer Corp. today and we'll show you how to take your productivity and profitability to the next level. Call **877.217.2072** or **407.352.2402** for details.
